

Errata for the Philadelphia Fed's Greenbook Data Set

This page lists any changes we have made to the Philadelphia Fed's Greenbook Data Set. Please note that this page refers to the Excel file containing Greenbook forecasts for the quarter-over-quarter annualized percent change in output and prices. It does not cover any changes that we have made to the scanned data set from the Board of Governors. Questions should be directed to:

May 2004: For forecast dates 1996.2 to 1996.4, we replaced Greenbook forecasts for the rate of inflation in the GDP deflator with those for the rate of inflation in the GDP chain-weight price index.

August 11, 2004: We corrected a few mistakes to our reported **output-growth forecasts**:

Forecast Date	Description
1980.4	Replaced the output-growth forecasts (QTR0 to QTR5) reported previously as (1.1, 0.9, 0.0, 1.0, 0.5, 0.5) with the correct values, (2.3, -1.6, 0.7, 1.2, 0.9, #N/A).
1990.1	Replaced the output-growth forecast (QTR6) reported previously as 2.1 with the correct value, 2.4.
1995.2	Replaced the Greenbook date previously reported as 5/19/1995 with the correct date, 5/17/95.

We also made the following change to our reported **inflation forecasts**:

Forecast Date	Description
1995.2	Replaced the Greenbook date previously reported as 5/19/1995 with the correct date, 5/17/95.
